Correction to July's Doc Door's Report No Change to Remote Control Activation

Please note that the statement in July's Doc Door's Report regarding a change in the remote control system Flexon supplies was incorrect. There is no need to provide a new receiver with orders for replacement transmitters, unless a problem exists with the receiver.

The remote control receiver and transmitter we supply with all new and replacement orders will be the same as it has been in the past. We apologize for any confusion this incorrect report may have caused.

If you have any questions, please contact our Inside Sales Department.
