HÖRMANN: ONE-STOP SHOP FOR COMMERCIAL, RESIDENTIAL & HIGH PERFORMANCE DOORS

Between Hörmann Flexon LLC, Leetsdale, PA and Hörmann LLC, Montgomery, IL, dealers have access to a complete line of quality commercial, residential and industrial doors, as well as loading dock equipment, for convenient, one-stop shopping.

Hörmann Flexon manufactures a complete line of high performance doors which includes the recently updated Speed-Master® Series, the new Speed-Commander™ 1400 SE self-repairing door and the ultimate in speed and security, the Speed-Guardian™ 2000. In addition, basic door products round out their product mix: The Flexidoor® Series of flexible impact doors; full-thickness traffic doors; PVC strip doors; the Screen-Master® insect control barrier; and a full range of Flexidock® loading dock equipment.

Hörmann in Montgomery, IL, recently introduced new series of both commercial and residential garage doors. These two new series of doors offer multiple designs and a wide selection of available colors. Hörmann is focused on providing the best garage door products available with the highest level of durability, safety, low maintenance and energy efficiency.

“With many dealers looking to reduce the number of suppliers they work with, yet still expanding their potential for growth, Hörmann is a logical choice with the thorough collection of door products and the company’s commitment to growth in the US. Presenting a unified package of brochures and support materials also tends to have an extremely positive impact on customers,” says Peter Burnham, National Sales Manager for Hörmann Flexon.
