### **SPEED-GUARDIAN™ 2400 FV INTRODUCED BY HÖRMANN FLEXON** **A high performance full view door with spiral guide technology**

The Speed-Guardian™ 2400 FV full view door with spiral guide technology is now available from Hörmann Flexon. This high performance door has a total panel thickness of 1-1/4" with 6-1/4" high window slats the entire height of the door panel. The Speed-Guardian™ 2400 FV is also complete with all of the same technology available on the Speed-Guardian 2000™, introduced earlier this year, such as an ultra-fast opening speed of up to 80" per second, a compact, self-monitoring direct-drive motor, and exclusive 5 & 2 Warranty.

A new two-page color brochure for the Speed-Guardian™ 2400 FV high performance door is available and includes information about product options available on both Speed-Guardian™ models such as low headroom tracks for applications with limited clearance and a 7'0" light curtain for enhanced safety.

Contact Hörmann Flexon at 800-365-3667 or [sales@hormann-flexon.com](mailto:sales@hormann-flexon.com) for more information.
